On Navigators:

Hello, this is (name) _____
from (city) _____ in your district.
I am calling about the Health Care Reform to ask you to be firm on the recommendations for who could be a Navigator for the citizens needing help. I believe they should be independent of the insurance industry and well prepared to serve people with barriers to insurance. Navigators should act in the consumer's interest and have training on the Exchange, Medicaid and other public programs and the private market. Thank you for using your votes to make this happen.
Good bye.

On Minnesota Care:

Hello, this is (name) _____
from (city) _____ in your district.
I am calling about MinnesotaCare which has provided affordable health care to lower income working people. It is imperative that the Health Care Reform pick up this same population through Medicaid on the lower end and by providing a Basic Health Plan that would expand the care now offered through the MNCare program. Please do not let MN Care recipients fall through the cracks as you vote on the new programs. Thank you. Good bye.
